EDUCATION

Master of Computer Science, University of South Florida Expected 2024
Relevant Coursework: Data Structures, Algorithm Essentials, Object-Oriented Programming, C programming Essentials, and Computer Networking Essentials.

SKILLS

Technical Skills	Python, C/C#, HTML5, React.Js, Javascript, SCSS/CSS, Vue, API, UI/UX design, Front-End Development, AR programming
Soft Skills	Product Strategy, Product Road-mapping, Feature Prioritization, Resource Management, Product Design, Problem-solving, User Research, A/B testing, Marketing, QA testing
Tools	Salesforce, ServiceNow, Visual Studio, Windows, REPLIT, GitHub, Postman, Jira, Unity

EXPERIENCE

Product Manager Intern	April 2022 - August 2022
Alloy Technologies	Lagos, NG

- Contributed to the integration of an external payment tool to handle transactional processes by assisting a cross-functional team of engineers and designers, resulting in a 33.67% efficiency increase in payment checkouts.
- Conducted competitive analyses to develop a marketing strategy and assisted engineers in planning their efforts toward implementing features aimed at improving customer experience.

Building Manager	April 2023 - Present
University of South Florida	Tampa, FL

- Maintained a high level of communication with clients ensuring at least 90% deliverance on commitments.
- Supervised and improved building operations, by implementing seamless solutions to workplace problems.

PROJECTS

Product Management	June 2023 - Present
Lagos on The Bay	Tampa, FL

- Performed a detailed research and gap analysis of current industry standards for food service web applications.
- Applied research results to design a web application that conformed to the clients' needs and curated technical product specifications.
- Continuously prioritizing product features and communicating product expectations to engineers, ensuring completion of MVP within a designated time-frame.

Website Development Designed and developed a newer version of my portfolio website using self-taught concepts of React Js, SCSS and Javascript. Utilized GitHub as a hosting platform, you can check out my website [here](#).

Ping Pong Game. Built a fully functional ping pong game using PyGame and Pygwidgets, hosted on REPLIT. Utilized knowledge of object-oriented programming to build the game using programming conventions. ([Try it here](#))

Simple Chat Program. Created a simple chat program using the concepts of socket programming. This program takes the port number of both the sending and the receiving partner, and the IP address of the receiving partner as arguments. This program allows a seamless exchange of messages between both partners.

LEADERSHIP

Pre-collegiate Initiative Chair	April 2023 - Present
National Society of Black Engineers (NSBE)	

- Managing the Pre-College Initiative (PCI) program at the USF NSBE chapter, fostering a robust culture of STEM exploration and engagement among K-12 students.
