EXPERIENCE

Product Manager Lagos on The Bay	June 2023 - Present <i>Tampa, FL</i>
--	---

- Performed a detailed research and gap analysis of current industry standards for food service web applications.
- Applied research results to design a web application that conformed to the clients' needs and curated technical product specifications for higher-up review.
- Continuously prioritizing product features and communicating product expectations to engineers, ensuring completion of MVP within designated time-frame.

Product Manager Intern Alloy Technologies	April 2022 - August 2022 <i>Lagos, NG</i>
---	--

- Compiled questionnaire results of preferred back road routes during rush hour period and implemented changes according to available designated locations on clients' application.
- Collaborated with team members to create beta applications aimed at improving user experience on the current locator page.

Building Manager University of South Florida	April 2023 - Present <i>Tampa, FL</i>
--	--

- Maintained a high level of communication with clients ensuring at least 90% deliverance on commitments.
- Supervised and improved building operations, by implementing seamless solutions to workplace problems.

PROJECTS

Website Development Designed and developed a newer version of my portfolio website using self-taught concepts of React Js, SCSS and Javascript. Utilized GitHub as a hosting platform, you can check out my website [here](#).

Ping Pong Game. Built a fully functional ping pong game using PyGame and Pygwidgets, hosted on REPLIT. Utilized knowledge of object-oriented programming to build the game using programming conventions. ([Try it here](#))

Simple Chat Program. Created a simple chat program using the concepts of socket programming. This program takes the port number of both the sending and the receiving partner, and the IP address of the receiving partner as arguments. This program allows a seamless exchange of messages between both partners.

LEADERSHIP

Pre-collegiate Initiative Chair National Society of Black Engineers (NSBE)	April 2023 - Present
--	----------------------

- Managing the Pre-College Initiative (PCI) program at the USF NSBE chapter, fostering a robust culture of STEM exploration and engagement among K-12 students.
